REASONS FOR ALLOWANCE

1. Applicants canceled claims 12-17, all of which were previously rejected in the last Office action.

2. The following is an examiner's statement of reasons for allowance: As previously indicated in the last Office action, neither Hoshi et al'074 or Yanaka et al'488 teaches or suggests present undercoat layer containing a compound having a polymerizable group on the molecule, which also has on the molecule an ethylene oxide group. Also, although the communication from Chinese Patent Office states that the Chinese document (CN-1372166) teaches present undercoat layer, both Nakamura et al (6,797,449), which is English equivalent of the Chinese document, and PTO's on-site oral English translation of the Chinese document (CN'166) indicate that the references do not teach or suggest present undercoat layer containing a compound having a polymerizable group on the molecule, which also has on the molecule an ethylene oxide group. Therefore, present invention of claim 1 is distinguishable over those cited references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sin J. Lee whose telephone number is 571-272-1333.
